REASON FOR DENIAL

Denial Reason Code: CO-109 — Claim not covered by this payer/contractor. You must send the claim to the correct payer/contractor. (Out-of-network provider, benefits reduced per plan terms.)

Our records confirm that Dr. Angela R. Walsh, MD and St. Luke's Medical Center — Austin are not contracted providers within the Bluestone Select HMO 500 network. Under your plan, services rendered by out-of-network providers are generally not covered, except in cases of a genuine medical emergency.

We have reviewed the clinical circumstances of this claim and acknowledge that the presenting condition (Acute ST-Elevation Myocardial Infarction) constitutes a medical emergency under Texas Insurance Code § 1271.155 and the federal No Surprises Act (42 U.S.C. § 300gg-131). Accordingly, emergency stabilization services have been processed at the in-network benefit level. However, all charges incurred after the member was medically stable and capable of transfer to an in-network facility — determined by our medical reviewers to be March 28, 2026 at 6:00 AM — are subject to out-of-network cost-sharing under Section 5.2.1 of your Summary Plan Description. The denied portion (\$38,880.00) reflects charges beyond the emergency stabilization period.

CLINICAL CRITERIA APPLIED

This determination was made pursuant to Bluestone Health Benefits Network Adequacy and Emergency Coverage Policy EC-CARD-011. A board-certified cardiologist conducted the post-stabilization review. The emergency stabilization period was determined based on clinical notes, nursing assessments, and attending physician documentation submitted with the claim.
